

Applied Cloud Systems COVID-19 Rapid Delivery Offers

When working remote is no longer a choice, but a requirement

Microsoft Teams and OneDrive

Applied Cloud understands the urgency to efficiently and effectively execute solutions to get your organization running remotely. We have created a Rapid Delivery model that will quickly deploy Microsoft **Teams and OneDrive** so your organization and employees can continue to collaborate and communicate virtually in this unprecedented time. Our systematic approach follows governmental regulations, secures data, and maintains productivity.

Applied Clouds Rapid Delivery offer will:

- Collect necessary information to customize Teams channels that works for your organization, analyze our findings, summarize our findings, and provide a robust Engagement Plan.
- Architect an environment that fits your organization's needs and cloud strategy.
- Train your administrators, users, and essential staff in understanding how to implement and maintain these platforms.
- Quickly deploy a proven governance framework to maintain regulations, compliance, privacy, and security for Enterprise, Education, Government, Retail, Healthcare and more.
- Help organization realize the on-going value and enablement of your Microsoft assets
